

[A] 物体がされた仕事.

$$400\text{ N} \times 0.3\text{ m} = \underline{120\text{ J}}$$

[B] 手がした仕事.

$$\left\{ \begin{array}{l} \text{手はばの力で} \rightarrow x\text{ N} \\ \text{何 m?} \rightarrow y\text{ m} \end{array} \right.$$

$$\begin{aligned} \textcircled{\text{技}} 1 \dots 2\text{ m} \times 400\text{ N} &= 3\text{ m} \times x\text{ N} \\ 800 &= 3x \\ x &= \underline{\underline{\frac{800}{3}\text{ N}}} \end{aligned}$$

$$\begin{aligned} \textcircled{\text{技}} 2 \dots 2 : 0.3 &= 3 : y \\ 2y &= 0.9 \\ y &= \underline{\underline{0.45\text{ m}}} \end{aligned}$$

$$\begin{aligned} \text{仕事} \dots \frac{800}{3}\text{ N} \times 0.45\text{ m} &= \frac{\overset{8}{\cancel{800}}}{\underset{1}{3}} \times \frac{\overset{15}{\cancel{45}}}{\underset{1}{\cancel{100}}} \\ &= \underline{\underline{120\text{ J}}} \end{aligned}$$
